ACTION: Director Woren moved to find that all required findings can be made pertaining to the variance application submitted by Randy and Quirina Buchwald, APN 047-241-380. (Woren/Lohman). Approved 5-0.

Pursuant to the District Code, where more than one variance application is submitted within a six month period and satisfies all required findings for issuance of a variance, then such variance applications are considered as to their comparative merits and the Board grants a total of no more than one variance from among such variance applications submitted during the preceding six months. The merits compared are those which best address the District's limited collection and transmission capacity. The bBoard held a general discussion regarding the comparative merits of the two variance applications being considered and determined that the merits of the Doherty application outweighed those of the Buchwald application.

ACTION: Director Lohman moved to accept grant a Variance to the application submitted by Dennis Doherty and Hugh Doherty Jr., APN 048-013-550, thereby granting a Variance based on the comparative merits of those considered. (Lohman/Woren). Approved 5-0.
